

The **Dispensing Propane Safely** class is based on a nationally recognized curriculum and incorporates the instructor's industry experience with Missouri codes and regulations.

Employees who attend Dispensing Propane Safely are your best protection against accidents.

Register today for the Dispensing Propane Safely class in your area. Some sites fill up quickly, so submit your registration now.

**Copies of NFPA 58, the LP-Gas Code, are available for purchase separately. See accompanying brochure for order information.**

**What to expect:** Students will take quizzes and tests to assess their pace of learning. A multiple-choice test will be administered at the end of the class.

Tests are graded by a third party and the results are mailed to each company. Registrants must be in attendance for the entire session. A score of 70% or higher is required to pass the test.

**Registration includes:** the cost of student and test materials, pencils, markers and other materials. Lunch and break refreshments are also provided. Other meals, lodging and travel are not included in the class fee.

***Space is limited at some locations. Register today and make sure you receive this required training!***

# Dispensing Propane Safely

The Missouri Propane Gas Association is proud to offer the 2023 summer schedule for Dispensing Propane Safely Training. Training sites are located conveniently throughout the state.

Missouri state regulations governing propane safety require that all persons who dispense propane must receive state-certified propane safety training as soon as the training is available in their area. It is also required that anyone dispensing propane have training every three years and the recurring training must also be a state-certified program.

**It is a violation of state law for any untrained person to operate a dispensing device.** The owner or manager where the dispenser is located is responsible for ensuring that all employees who operate the dispenser at that location receive state-certified training every three years.
